(9) Community of Interest Statement

Courtland is a rural exchange located in Southampton County in south central Virginia in the Norfolk, Virginia LATA and serves approximately 1,900 customers. Waverly is primarily a rural exchange serving a portion of Sussex County with approximately 2,400 access lines. Waverly is located in the Richmond, Virginia LATA. Community of interest is primarily from the northern end of the Courtland exchange to Waverly. The Town of Waverly is the closest commercial center to residents in the northwest portion of the Courtland exchange. The major employers in Waverly include Evans Lumber Company, Georgia Pacific Corporation, Waverly Hardwoods, Inc., Carroll Foods of Virginia, Inc. and two large state prison facilities, Sussex I and Sussex II. They offer employment to 1100 people, including residents in the Courtland exchange. There is a family medical practice in Waverly as well as the Waverly Health Care Center which provides intermediate and long term care for up to 120 patients. Waverly also offers numerous retail outlets, a large grocery store, several restaurants and retail car outlets. Another community of interest would be among family and friends in the adjacent areas along the common boundary between Courtland and Waverly and other common interest areas such as churches, community centers, etc. ELCS would address community of interest needs related to employment, medical, retail/commercial and community/personal.

(10) Maps

Maps are attached for the Courtland and Waverly exchanges.

(11) Other Pertinent Information

Chronology

On May 28, 1999, Bell Atlantic Corporation and **GTE** Corporation filed a Joint Petition before the Virginia State Corporation Commission ("SCC") for Approval of Agreement and Plan of Merger. In that petition, both companies agreed, upon consummation of their merger, to expand local calling areas to include contiguous exchanges both **within** and between their respective territories in the Commonwealth of Virginia. The SCC, in its "**Order Approving Petition**" dated November 29, 1999, in Case No. PUC990100, found this commitment to be appropriate and **ordered** Bell Atlantic - Virginia, Inc. and **GTE** South Incorporated to file their plan for expansion of their local calling areas. These plans were filed with the SCC on July 21, 2000, in a Joint Application to expand local calling (Case No. PUC000204). Both companies have been implementing expanded local calling in phases since that joint application was filed. On November 2, 2001 Verizon Virginia (f/k/a Bell Atlantic - Virginia, Inc.) and Verizon South (f/k/a GTE South Incorporated) filed an Application to implement expanded local calling between those adjacent exchanges that are in different LATA's. For those exchanges whose basic rates increase, the SCC ordered the companies to provide notice to customers via direct mail. Exchanges whose rates did not change did not receive a public notice. On May 3, 2002, the SCC issued an order approving ELCS for all interLATA routes in this application including the route between Courtland and Waverly.

(9) Community of Interest Statement

Clover is a rural exchange located in south central Virginia in the Lynchburg, Virginia LATA and serves approximately 2,400 customers. The Clover exchange serves portions of Halifax and Charlotte Counties. The Drakes Branch exchange serves a portion of Charlotte County and is adjacent to the northeast boundary of the Clover exchange. The Drakes Branch exchange serves approximately 600 customers and is located in the Richmond LATA. The community of interest is between Charlotte County customers in the Clover exchange and other exchanges, including Drakes Branch, that serve Charlotte County. Community of interest centers on employment, retail and interests related to the local community. There are two major employers in the Drakes Branch exchange; Westpoint Stevens Inc. and Stanley-Land & Lumber Corporation. Also located in Drakes Branch is International Carbide and Engineering. These businesses offer employment to over 600 people in the area including Clover and Charlotte County. Dominion Virginia Power has a large electric generating plant in Clover which also offers employment to the area. ELCS will allow local communications between employer and employees in these two exchanges. The Drakes Branch community is one of the closest commercial areas to Clover. It offers a variety of basic retail services including general merchandise, groceries, banking, auto repair, home repair and farm supplies. Drakes Branch also has a branch office of the area newspaper. ELCS will allow Clover customers to communicate with these businesses on a local basis. ELCS would also provide more economical communications between family, friends, churches and community groups along the border between Clover and Drakes Branch.

(9) Community of Interest Statement

Fife is a rural exchange located in central Virginia serving the western portion of Goochland County that is on the western edge of the Richmond metropolitan area. The Fife exchange is in the Richmond, Virginia LATA and serves approximately 2,200 customers. The Mineral exchange, also in central Virginia, serves the eastern portion of Louisa County. The Mineral exchange serves approximately 6,700 customers and is located in the Culpeper, Virginia LATA. The community of interest is personal/community, retail, employment and recreational related. The interest is more from Fife to Mineral. The Fife exchange has no major employers and the few small communities in the exchange have businesses that supply basic needs such as fuel, food and farming supplies. Mineral offers a range of retail shopping facilities including professional services, general merchandise, auto repair shops and restaurants. Major employers include Tradewinds of Virginia (lumber products) and Dominion Virginia Power (North Anna Nuclear Power Plant). These and other businesses offer over 1,100 jobs to the area including Fife. Lake Anna offers boating, fishing and other recreational opportunities for a wide area including Fife. ELCS will enhance local communications between the northern portion of the Fife exchange and the Mineral exchange for family, friends, community groups, churches and their congregations, as well as for employment, retail and recreational needs.

(9) Community of Interest Statement

**The** Gloucester exchange is located in the southeastern portion of Virginia's middle peninsula with approximately 12,000 access lines. Gloucester is located in the Richmond, Virginia LATA. The Toano exchange is northwest of and adjacent to the Toano exchange on Virginia's upper peninsula with approximately 4,700 lines. Toano is in the Norfolk, Virginia LATA. The primary **community** of interest between these exchanges is employment and retail. Gloucester **serves** as one of many "bedroom" communities for the peninsula area. **The** Toano exchange has a number of **retail** outlets *that* draw shoppers from the entire peninsula **area** including Gloucester. Toano also has **numerous** industrial sites including Stonehouse Commercial Park and **Hankins Industrial Park** with businesses such as Owens-Brockway, BP Solar and the John Deere Gator assembly plant. These larger businesses plus the many smaller retail outlet and restaurants draw employees from the area including Gloucester. ELCS will enhance these community of interest **needs** through expanded local calling.

(9) Community of Interest Statement

The Gloucester exchange is located in the southeastern portion of Virginia's middle peninsula with approximately 12,000 access lines. Gloucester is located in the Richmond, Virginia LATA. The Williamsburg exchange is located on Virginia's upper peninsula with approximately 40,400 lines. Williamsburg is in the Norfolk, Virginia LATA. The areas of community of interest between *these* exchanges **are** employment, medical, recreational, educational and retail shopping. The Gloucester exchange **serves** one of many "bedroom" communities for the peninsula **area**. The Williamsburg exchange offers many employment opportunities for Gloucester and other nearby **exchanges**. Colonial Williamsburg and Busch Gardens **are two** major tourist attractions for the mid-Atlantic area **These** attractions draw thousands of employees from the **surrounding areas** along with major industries including Anheuser Busch, Inc., Ball Corporation, Induplate, Inc., Busch Properties, Wal-Mart and the Williamsburg Pottery Factory. Support facilities for tourism such **as** hotels and restaurants **use** large numbers of employees. Although Gloucester has a regional hospital, residents look to other hospitals such **as** Williamsburg Community Hospital and area medical specialists for acute and specialty care not available in Gloucester. The recreational activities at Busch Gardens and Colonial Williamsburg attract people **from the area** including Gloucester. Higher educational opportunities for Gloucester are available at the College of William and Mary in Williamsburg. There are hundreds of retail shops and factory outlets that attract shoppers from the surrounding communities including Gloucester. ELCS will enhance local communications between these communities and meet community of interest needs.

Maps are attached for the Gloucester and Williamsburg exchanges.

(11) Other Pertinent Information

Chronology

On May 28, 1999, Bell Atlantic Corporation and GTE Corporation filed a Joint Petition before the Virginia State Corporation Commission ("SCC") for Approval of Agreement and Plan of Merger. In that petition, both companies agreed, upon consummation of their merger, to expand local calling areas to include contiguous exchanges both within and between their respective territories in the Commonwealth of Virginia. The SCC, in its "Order Approving Petition" dated November 29, 1999, in Case No. PUC990100, found this commitment to be appropriate and ordered Bell Atlantic - Virginia, Inc. and GTE South Incorporated to file their plan for expansion of their local calling areas. These plans were filed with the SCC on July 21, 2000, in a Joint Application to expand local calling (Case No. PUC000204). Both companies have been implementing expanded local calling in phases since that joint application was filed. On November 2, 2001 Verizon Virginia (f/k/a Bell Atlantic - Virginia, Inc.) and Verizon South (f/k/a GTE South Incorporated) filed an Application to implement expanded local calling between those adjacent exchanges that are in different LATA's. For those exchanges whose basic rates increase, the SCC ordered the companies to provide notice to customers via direct mail. Exchanges whose rates did not change did not receive a public notice. On May 3, 2002, the SCC issued an order approving ELCS for all interLATA routes in this application including the route between Gloucester and Williamsburg.

(9) Community of Interest statement

Goochland is a rural/suburban exchange located in central Virginia serving a portion of Goochland, Louisa and Powhatan Counties that are on the western edge of the Richmond metropolitan area. The Goochland exchange is in the Richmond, Virginia LATA and serves approximately 4,400 customers. The Mineral exchange, also in central Virginia, serves the eastern portion of Louisa County. The Mineral exchange serves approximately 6,700 customers and is located in the Culpeper, Virginia LATA. The community of interest is personal/community, educational, employment and recreational related. Today, Goochland exchange customers living in Louisa County cannot communicate with any of their children's school or the school administration on a local basis. ELCS would enhance communications between students, parents and faculty by allowing local calling. Both the Mineral and Goochland exchanges offer employment opportunities to one another. Major employers in the Mineral exchange include Tradewinds of Virginia (lumber products) and Dominion Virginia Power (North Anna Nuclear Power Plant). These and other businesses in Mineral offer over 1,100 jobs to the area including Goochland. Major employers in Goochland include the Virginia Correctional Center for Women and the Beaumont Learning Center. ELCS will enhance employer/employee communications between businesses in Goochland and the Mineral exchange in Louisa County. The J. Sargeant Reynolds Community College-Western Branch located in Goochland offers higher educational opportunities to the area including both the Goochland and Mineral exchanges. ELCS Will enhance local communications between students and educators for the Louisa County (Mineral) area. Lake Anna in the Mineral exchange offers boating, fishing and other recreational opportunities for a wide area including Goochland. ELCS will enhance local communications between the northern portion of the Goochland exchange and the Mineral exchange for family, friends, community groups, as well as churches and their congregations.
